3rd January 2023

Introduction

2022 was an exceptional year in the history of Development for Humanity (DEH) considering the vision stated in 2007. This report will therefore begin with the vision (planned activities) before presenting achievements for 2022.

DEH'S Vision and Achievements for 2022

The Development for Humanity (DEH) wishes to put its 15 years' experience into maximum use for the service of humanity in 2022. As such she intended to:

1. *Widen and intensify partnership with relevant organizations for the sake of development of underprivileged communities in the country and especially displaced communities in the NWSWR. We hope that our foreign country representatives will be more aggressive in 2022, and we will consolidate existing partnerships and create relevant ones needed to achieve the mission of the organization.*

Achievements:

- 1.1. DEH carried out major harvest of Catfish (*Clarias gariepinus*) from its aquaculture training and demonstration farm. 80% of 100Kg harvest was sold at moderate prices to interested members of the population in Bamenda city, Cameroon, while 20% was used as gift to 20 underprivileged internally displaced families.

- 1.2. DEH maintained its (pig, poultry and fish farming) demonstration farm at Bambui – Tubah subdivision, where over 50 farmers received need-based training
- 1.3. Agricultural advisory services were also offered to some needy farmers in the sphere of vegetable gardening, pig and poultry production, food crop production and soil conservation
- 1.4. DEH collection and analysed data on: 'Changing livelihoods and economic integration of IDPs of the Anglophone crisis in Cameroon, who had relocated to the neighboring West Region of Cameroon. This project commenced already in 2021 was funded by the

Picture 2: Sample IDP household

1.5. DEH also collected and analyzed data on the sources and effects of sea pollution on fishing at the Douala 6 municipality

Picture 3: DEH Data Analyst/Research Coordinator and Environment/Climate Change Expert on their way for data collection in Camp Cameroon and Manoka, Douala city, Cameroon

1.6. We organized a 5 days training workshop on Data Analysis using the Statistical Package for Social Science (SPSS) for students and NGO project staff in Bamenda, from 7-11 March 2023, at the Bamena University of Science and Technology – BUST Bamenda (www.bustedu.com).

1.7. The DEH Data Analyst/ Research Coordinator (Mr. Ngwa Kester Azibo) and the Sustainable Agriculture Program Lead (Ms Ngepopi Kelly Neh) were respectively admitted in to the PhD Program in Natural Resource and Environmental Management (NaREM) at the University of Buea and in to the Master of Science in Animal Production at the University of Dschang. More can be seen at www.dev4humanity.org. They are progressing well with their studies.

1.8. The DEH team successfully carried out an external evaluation of the activities of the NGO: Women in Action against gender violence, WACameroon (www.wacameroon.org). This project was funded Bread for the world, Germany from 2020 to 2022, with the title: “Men’s Leadership in GBV Prevention and Response Chain within The Humanitarian Crisis In The North West Region of Cameroon” executed by WACameroon.

Conclusions for 2022 and vision for 2023

In general, DEH seems to be on a good footing. With the advent of 07 new board members, DEH is probably sure of making more progress in 2023. The new Board of Directors elected in 2021 have been able to raise more funds in 2022, and have made monitoring and evaluation an integral part of the organization's development strategy. We intend to expand our networks and partnerships for development in 2022. Of particular interest for 2023 is the EU-funded INCiTiS FOOD Aquaponics Project (www.incitis-food.eu), for which DEH is warming up to participate in its open call and enhance to its capacity as a service organization in the project currently hosted at the Bamenda University of Science and Technology, Cameroon.

. Other Key areas of focus for 2023:

1. We also target 50 scholarships for vulnerable children
2. Fully engage in the INCITIS FOOD aquaponics project
3. Set up own aquaponics innovation center and train/support aquaponics innovators
4. Strengthen volunteerism
5. Engage and train students on internship
6. Increase search for possible funding sources for DEH's traditional activities
7. Establish a strategic plan for the organization (2024-2028)
8. Continue to establish new partnerships, especially in the field of research and development
9. Engage in participatorily identified rural development projects for the poor in North West Cameroon
10. Increase income from consultancy activities

Final word

Development for Humanity welcomes well-wishers and partners who want to support its humanitarian activities in any form. If you are willing to support this noble initiative, please contact the organization directly best by email (info@dev4humanity.org) or phone. Personal contacts can also be made directly to the Director or Programs Coordinator mentioned on the cover page of the report. Your little contribution can make a difference.
